

We at The Crane Watch Club are still closely following the recommendations regarding Covid-19.

We are still enforcing Social Distancing, Wearing of Masks, Sanitizing Stations, and Temperature Screenings. We also have kept our seating capacity to 50% instead of the allowable 100%.

More and more of our Team Members are being Vaccinated.

Team Members are not to come to work should they feel any symptoms, and must get a Negative Covid-19 Test before being allowed to come back to work. We Encourage Members/Guests to follow the same procedures.

Thank you for your understanding during these difficult times.
